Sustainability Reporting with GRI Standards

(GRI Certified Training Program)

Presented by

Asian Centre for Corporate Governance & Sustainability

21st & 22nd February, 2018

Hotel Orchid, Near Domestic Airport, Vile Parle-E, Mumbai 400099

Businesses worldwide are leveraging Sustainability Reporting to garner respect and recognition from their ecosystem. Are You???

Sustainability Reporting is a strategic tool to measure and enhance your organisation's economic, social & environmental performance as well as to fulfil the information needs and expectations of your multiple stakeholders, set goals, and manage change more effectively.

Sustainability reports based on the GRI Standards can be used to benchmark organizational performance with respect to laws, norms, codes, performance standards and voluntary initiatives demonstrating organizational commitment to sustainable development and compare their performance over time.

The GRI Standards are the first global standards for sustainability reporting. They feature a modular, interrelated structure, and represent the global best practice for reporting on a range of economic, environmental and social impacts.

GRI Standards can also be linked to NVG/Business Responsibility Reporting, OECD Guidelines for MNE's, CDP, SDGs and others

The **Certified Training Program** on Sustainability Reporting with GRI Standards gives you knowledge of the GRI Standards and reporting to facilitate their use within your organization. Whether you are thinking about preparing your first report, or you're a seasoned sustainability specialist, you can learn new knowledge and skills on how to use the GRI Standards for a sustainability reporting process. The **Certified Training Program's** aim is for the participants to understand how to use the GRI Standards for the sustainability reporting process, develop your sustainability reporting know-how, so you can run a smooth and effective reporting process, producing the best possible GRI report.

**Asian Centre
for Corporate
Governance &
Sustainability**
is a GRI Certified
Training
Partner in India
since 2009

Takeaways for the participants:

GRI issues the attendance certificate to the participants directly on completion of the 16 hour program delivered in two days, covering the following learnings;

01

What are GRI Standards and how they are applied to generate a sustainability report

02

The process required to report in accordance with the GRI Standards

03

Apply the principles and methods for defining the report content

04

Conduct effective engagement with key stakeholders for relevant and quality report content

05

Acquire skills to coordinate a sustainability reporting project in your company

06

Linking your sustainability report with other disclosures- regulatory and voluntary

About GRI:

GRI is an international independent organization that helps businesses, governments and other organizations understand and communicate the impact of business on critical sustainability issues such as climate change, human rights, corruption and many others since the late 1990s, transforming it from a niche practice to one now adopted by a growing majority of organizations. GRI is the bridge between businesses and governments, enabling them both to make positive contributions to the UN SDGs.

Starting 1st July 2017, the GRI Standards Exam have replaced the G4 Exam. To gain this knowledge, first-time reporters are encouraged to take a GRI Certified Training Standards course through GRI's Certified Training Partners. All course participants will receive a 20% discount on their exam fee.

Registration Fee:

Rs 21000/-
per participant
