DIRECTORS NETWORK

Legal & Regulatory landscape within which boards are operating is changing fast and becoming complex. For instance, new Companies Act – 2013, in India, has placed humongous responsibilities on the shoulders of Independent Directors. As a result, the risks for Independent directors have increased many fold. In order to manage and mitigate these risks, directors need specialised advice.

Asian Centre For Corporate Governance, recognises these ever increasing needs of Independent as well as Whole time directors. These needs can be categorised as follows;

- **Appointment needs** - Need to get on boards
- **Development & Board renewal needs** - Need to renew once own knowledge on changing landscape of Corporate Governance and duties and responsibilities of Directors.
- **Information needs** – need to seek advice on Legal, Regulatory, Financial and Taxation matters.
- **Legal Protection needs** - need to seek advice on how to protect oneself from the Legal risks eg. Risk of arrest warrant etc.

Asian Centre is attempting to fulfill these critical needs of directors through a special initiative ‘DIRECTORS NETWORK’, being launched at the occasion of inaugural Director Power Breakfast Series 2014-15, on 12th August 2014 at the hands of Mr. Subodh Bhargava, Chairman, Tata Communications Limited.
